

# E-WORLD

## Smart School Management System

AI-powered education platform designed specifically for Saudi Arabia's schools

# Schools Face Mounting Pressures Today

## Administrative Overwhelm

Principals spend 60% of their time on paperwork instead of education leadership. Manual fee tracking leads to delayed payments and cash flow issues, whilst communication gaps persist between teachers, parents, and administration.

## Student Success Concerns

Teachers struggle to identify at-risk students early enough to intervene effectively. Parents feel disconnected from their child's daily progress, and schools lack data-driven insights to improve learning outcomes.

## Operational Inefficiencies

Timetable conflicts create scheduling nightmares. Lost documents and missing student records waste precious time, whilst repetitive administrative tasks prevent staff from focusing on education.

## The Saudi Context

Schools require seamless Arabic-English bilingual support, Ministry of Education compliance, and cultural considerations for communication and privacy that generic systems cannot provide.

# AI-First School Management

## Not Just Another Management System

We've built an intelligent platform that thinks, predicts, and acts—so your staff can focus on what truly matters: education.

**The Difference:** Traditional systems merely digitize paperwork. Our system eliminates paperwork and predicts problems before they happen.

01

### Intelligence by Default

AI handles routine tasks automatically

02

### Mobile-First for Saudi Arabia

Parents and teachers on the go

03

### Built for Both Languages

True Arabic-English bilingual experience

# AI That Works For You

## Smart Scheduling Engine

Automatically generates optimal timetables in minutes, considering teacher availability, room capacity, and subject requirements. Suggests substitute teachers instantly when someone is absent.

**Result:** What took 3 days now takes 15 minutes

## Predictive Student Analytics

Early warning system identifies struggling students 6-8 weeks before exams. Provides personalized learning recommendations based on performance patterns and behavior correlation analysis.

**Result:** Intervention when it matters, not after it's too late

## Intelligent Grading Assistant

Auto-grades objective questions instantly with Arabic handwriting recognition. Detects plagiarism in assignments and suggests grade distributions whilst identifying outliers.

**Result:** Teachers save 10+ hours per week on grading

## 24/7 AI Support Chatbot

Answers common questions in Arabic and English, handling fee status, exam dates, and attendance queries. Escalates complex issues to staff automatically.

**Result:** 70% reduction in support tickets

# Complete Financial Control & Management

## Financial Control

- Generate invoices for fee payments automatically
- Real-time dashboard showing pending payments
- Send automatic SMS reminders for overdue fees
- Direct bank account integration—choose where fees are deposited
- Track payment trends and forecast cash flow

## Staff & Student Management

Enable or disable teacher and student access with one click. Generate usernames and passwords instantly with secure password reset workflows and complete audit trails.

## Communication Hub

Create and circulate announcements with selective notifications to specific groups. Track who read what and when through multi-channel delivery: app, SMS, email, WhatsApp.

## Data-Driven Insights

Live KPI dashboard for all school metrics including enrolment trends, attendance rates, and fee collection status. Export reports for Ministry of Education compliance.

# Effortless Teaching Tools

## Effortless Result Management

Upload student results through simple Excel import with automatic grade calculations and ranking. Generate report cards with AI-powered performance summaries and one-click publishing to parents.

## Comprehensive Student Control

Enable or disable individual student access whilst tracking attendance patterns. View complete student history in one place and set behavior alerts with disciplinary records.

## Rich Content Publishing

Upload circulars, daily tasks, project work, and lab assignments. Create and share schedules, timetables, exam results, and parent-teacher meeting details with Zoom integration.

Teachers also gain access to collaborative tools including sports team selection, resource libraries for sharing materials, lesson planning tools integrated with curriculum, and a comprehensive student support system to review and resolve tickets.

# Academic Transparency & Support

- **Academic Transparency**

Access report cards, exam results, and lab reports instantly. View sports performance and extracurricular achievements whilst tracking progress over time with visual analytics.

- **Seamless Communication**

Attend parent-teacher meetings through integrated Zoom links. Receive all notifications, news, and circulars in one place with Arabic or English preference.

- **Support When Needed**

Raise tickets for doubt clearance, support, and requests. Track ticket status in real-time and receive responses from teachers directly with AI Chabot instant answers.

- **Hassle-Free Fee Payment**

Pay school fees directly through the platform with multiple payment methods: card, bank transfer, Apple Pay. Instant payment confirmation with digital receipts and automatic reminders.

 **Progress Tracking:** Detailed performance analytics by subject with AI-generated personalized learning recommendations and rank tracking based on academic performance.

# Complete Feature Suite

## Admission Management

Digital enrolment process with AI-powered document verification, automated admission test scheduling, and duplicate detection to prevent fraud.

## HR & Staff Management

Teacher payroll processing, leave management, staff attendance tracking, and performance review systems with professional development tracking.

## Library Management

Digital and physical book tracking with student borrowing history, automated overdue notifications, and integration with digital learning resources.

## Transport Management

Bus route planning and optimization with real-time GPS tracking integration, parent notifications for bus arrival, and driver management.

## Exam Management

Exam scheduling, seating arrangement generation, hall ticket creation, question paper management, and comprehensive exam analytics.

## Certificate Generation

Automated transfer certificates, bonafide certificates on demand, mark sheets with customizable templates and digital signatures.

# Ministry Compliance & Cultural Integration

## True Bilingual Experience

Full Right-to-Left (RTL) support for Arabic with native Arabic UI/UX design—not just translation. Switch languages seamlessly mid-session with Arabic voice input for notes and queries.

## Ministry of Education Compliance

- Noor system integration ready
- Automated reporting to MOE
- Standardized Saudi curriculum mapping
- Hijri calendar alongside Gregorian calendar
- Gender-segregated interface options where needed

## National ID Integration

Iqama verification during admission, national ID validation for staff, Absher integration possibilities, and secure identity management throughout the system.

## Mobile-First Design

Native iOS and Android apps with WhatsApp integration for notifications. Works perfectly on smartphones and tablets with offline mode for connectivity issues.

# Transform Your School Today

**40%**

## Administrative Cost Reduction

Reduce administrative workload  
significantly

**25%**

## Improved Fee Collection

Better fee collection rates and  
cash flow

**10+**

## Hours Saved Weekly

Teachers save time on grading  
and admin

**95%**

## Parent Satisfaction

Exceptional parent satisfaction  
rate

### See It In Action

- Request a personalized demo
- 30-day free trial with full access
- We handle setup and training
- No credit card required

**Implementation Timeline:** From decision to full transformation in  
just 3 months. Your success is our mission.

**Flexible Pricing:** Per-student pricing that scales with your school. All-inclusive hosting, updates, and 24/7 support. ROI guaranteed  
with 6-8 month payback period.
